A. B. LEWIS BUYS MORE MINES

Some For Majestic Company, Others For Himself.

DEXTER'S ANNUAL MEETING

CONSOLIDATED MERCUR POSTS | consider this matter, ANOTHER DIVIDEND.

Because the meeting one year since was delayed for several weeks, the reports this time cover a period of only

Regular Contribution of \$30,000 to a little more than eleven months, from Dec. 10, 1901, to the 15th of the present

after it left the stamp mill at a cost of \$1.10 per ton, while the extraction amounted to \$1.89 per ton. The difference between the total tonnage and the amount treated in the cyanide mill
-8,163 tons—has gone off as slimes
to be settled in the great outside res-

work done in the mine has gone a long way to show the worth of the property, the earnings going toward the exploration of new ground and the blocking out of ore bodies rather than to the wiping out of the indebtedness, which is now \$19,306,74, or \$2,023,87 less than it was at the beginning of the

IRON OPERATORS GATHERING.

Frank H. Buhl Here; P. L. Kimberley Due Tomorrow.

Frank H. Buhl of Sharon, Pa., accompanied by Mrs. Buhl, came in from the east late Sunday night and regis-tered at the Knutsford. Mr. Buhl joined Mr. Kimberley several months ago in the acquirement of the immense iron deposits of Iron county, and he will be joined by the latter tomorrow. The appearance of both at this time, though not unexpected, has set men in all branches of the mining industry to speculating on what is about dustry to speculating on what is about to happen. Mr. Buhl declares there is nothing he can say that would be of interest to the public at this time, and the chances are remote that they will disclose the purposes of their

There is no doubt, however. that features of the great enterprise which they are preparing to launch in the iron regions will receive careful at-tention, and before they leave there is reason to believe that some important moves will have been made. Some of them have eropped to the surface from indirect sources, but it would be altogether premature to discuss them in advance of formal announcement by the parties at interest. It will be violating no confidence to say, though, that the wealthy operators have things well in hand and when the proper time arrives there will when the proper time arrives there will be news that cannot fail to interest every inhabitant of Utah and the entire west, for that matter.

SOUTHERN MINING NOTES.

Francisco to Sink-Delay in Transfer

in Sevier Mine.

(Special to The Herald.)

Richfield, Nov. 17.—With the proceeds of an assessment just levied and collected by the Francisco Mining company, it is proposed to sink at least fifty feet farther on the property in Beaver county, and a contract will be let in a few days. The shaft is already down nearly righty feet. It follows a vein of ore its entire depth carrying values of from 3 to 6 per cent copper, two to six ounces of silver and \$2 to \$3 in gold. It is expected that the big vein which is believed to lie in the property will be reached at a depth of about 150 feet.

Lying within three miles of the fain Sevier Mine.

about 150 feet.

Lying within three miles of the famous O. K. mine, and but a few hundred yards from the Cactus, the hope is that the Francisco will develop into a handsome paying property before a great while,

Mr. and Mrs. Charles Lammersdorf Mr. and Mrs. Charles Lammersdorf came down from the Sevier mine on Gold mountain to reside here this winter. Mr. Lammersdorf says the transfer of the property to the recent purchasers has been delayed on account of the illness of Captain Lawrence. A watchman has been placed in charge of the property until the deal is completed.

MAY DAY MILL TO START.

Directors Agree to Supply Ore Neces-

PRESIDENT A. B. LEWIS of the Majestic company came up from the south yesterday loaded down with good news. In the first place, he announced that a deal had just been closed which added to the possessions of the company's Vicksburg group no less than twenty adjoining claims, making the total number of claims embraced in that group twenty-seven. He also announced that the remaining or onustanding one-half interest in the Capital group, adjoining the Harring-ton-Hickory, had been purchased and that the company was now in possession of all the ground embraced in the holdings covering that famous property.

In addition to attending to these matters for the Majestic company, Mr. Lewis has also turned an important deal or two on his own account since last he was in this city. He has purchased outright a group of claims lying west of the Old Hickory and another eleven miles northeast of Millord, known as the McLaughlin group. Not satisfied with these, he also secured under bond the Highland Boy group of four claims adjoining the famous Cave mile in the Bradshaw district.

A force of men has been at work on each of the groups named, and during the winter he counts upon development work showing up something out of the ordinary.

The property west of the Old Hickory is of course, the same kind of a copper proposition as its neighbor while the McLaughlin group is one in which copper, gold and silver all occur in generous quantities. The ground adjoining the Cave is expected to turn out a formidable rival of the famous old rich producer, and, altogether, he was feeling jubilant over the result of his past few days' work.

DEXTER'S ANNUAL MEETING.

Old Officers Re-elected—Result of the Year's Work.

The shareholders of the Dester The Year's Work.

The sharehoiders of the Dexter-Tuscarora Gold Mining company met in annual session yesterday afternoon, listened to reports of officers, and reelected the old board of directors and officers, as follows: Ed H. Airis, president; S. B. Milner, vice president; the other members of the board being E. O. Lee, John Dern and Charles J. Devereaux, of Boston. George E. Airis was again named as secretary-treasurer of the company.

Because the meeting one year since

CON. MERCUR DIVIDEND.

Be Made Dec. 9. a little more than eleven months, from Dec. 10, 1901, to the 15th of the present month:

During that time the total receipts amounted to \$130,712.76, while the total operating expenses were \$125,021.41, leaving an apparent net earning of \$5,691.35. To this should be added, however, \$18,000 that was expended in new development work in the property. ever, \$18,000 that was expended in new development work in the property, which would make the real earnings of the company \$23,691.35.

During the time specified, the company's stamp mill treated 30,093 tons of crude ore, at a cost of a little less than 72 cents per ton. An extraction of \$2.88 per ton was obtained from the ore on the plates. In the agitation and percolation departments of the cyanide plant 22,930 tons of the above crude mine product was handled after it left the stamp mill at a cost of \$1.10 per ton, while the extraction amounted to \$1.89 per ton. The difference of the company to the company to the day after distribution is made. The mine is keeping up its record for important development, only yesterday a report coming that will prove most interesting reading when Manager Dern has allowed sufficient time to elapse to prove beyond question that a strike just made, is all that it seems to be. The mill is handling the regular 1,000 tons a day of ore, and the extraction is also being well maintained. About one-third of the ore of the property, and the balance from the Electric tunnel connections.

STRIKE IN LOST PACKER. Tunnel Cuts Ledge at a Depth of 100

to be settled in the great outside reservoirs, when the values it contains will be recovered by leaching.

The result of the year's run is satisfactory to the management, as the isfactory to the management, as the displayed in the mine has gone a depth of 100 feet, is three feet wide and still shows values of over \$100 per ton. This demonstrates that property to be of great worth, as surface excavations show the vein to be continuous for more than 1,000 feet.

of great worth, as surface excavations show the vein to be continuous for more than 1,000 feet.

Ore and Bullion.

Ore and bullion settlements in this city vesterday, as reported by McCornic & Co., amounted to \$83,700, as follows: Sliver, lead, gold and copper oree, \$3,000, bars, \$25,000.

New York, Nov. II.—The stock market presented few it any marked characteristics today. Although London prices switch to the stock with the presented few it any marked characteristics today. Although London prices switched in the opening here ably caused by the liquidation of those who withstood last week's depression as well as by the profit-taking of speculators who bought during that same period. These uneven conditions gave way to a better feeling before the end of the first hour, when it became evident that certain vague rumors of "trouble" were unfounded. The feature of the early trading, as well as of the entire day, was Manhattan. which was exceptionally sitrong and active, making a maximum and net gain of over 5 points on transactions that more than exceeded fourtiffs stock, which was bought openly in high stocks by brokers who usually represent Gould interests, revived the old story that Manhattan is to be taken over by the New York Central by a guarantee dividend. No confirmation of this was obtainable, nor did any great amount of credence attach to it symmetrees are considerable attention was drawn to St. Paul by reason of its rather irregular movements and the stock closed with a slight loss. New York Central, which made an early gain of & lost not its good showing in earnings for the fiscal year. Other active railway issues that displayed heaviness included the Pacific group, the pressure against Union Pacific allone being very marked. In the spectal class Colorado Fuel, United States Steel, American Smelting, Sugar and a few others were steady. Sugar making a material net gain. For the most part, however, changes were unimportant during the early session and the market was marrow, traders showing a disposition to await developments in the local financial situation. The chief feature in this quarter was the transfer of \$55,000 to the state of the control of the cont 4,900 shares.

for this city during the week created some uneasiness.

Call money was as high as 6 per cent and as low as 3½, the bulk of loans being at 4½ per cent. London bought about 25,000 shares in the early declines and sold the greater part on the rise. The increased dividend in Norfolk & Western common failed to bring any material improvement to that stock, although dealings were moderately heavy. The decline of 3½ points in General Electric resulted from reports of labor troubles at the company's works at Schenectady.

Profit-taking in the last hour brought recessions to a number of active issues, and while the market rallied the close was irregular. The question of increased rallway wages continues to be a matter of serious discussion, as well as the congestion of freight traffic on the leading roads, and it is becoming clear daily that the capacity of practically every trunk road will be taxed to the utmost.

Bonds were irregular on a small range. Total sales, \$2,345,000. United States old 4s declined ¼ per cent on the last call.

Succinited % per cent on the last call.

Page's Daily Market Letter.

The market seems to be getting steadler, and the day's trading was without sensations. Ajax sold 30c and Ben Butler closed an offering at 10c, California 23%c bid and Carisa 17%c. Century and California are not so active as they were, and Lower Mammoth and Wabash are the leaders. Century closed 86c bid, Lower Mammoth \$1.35 and Wabash 86%c. Creole is an offering at 46c and Con. Mercur at \$1.79. Daily-West sold around \$44.60. Lone Pine is held at higher prices than quotations. Martha Washington sold at 2%c and May Day 21%c, Ontario \$7 and Sacramento 25c. Uncle Sam at 27%c and New York showed strength around 17%c. Daly-Judge sold from \$9.10 down to \$9. Use judgment in your selections and buy stocks now. Metal Markets. New York, Nov. 17.—Tin underwent a sugar, 2 15-16; refined, steady.

New York, Nov. 17.—Tin underwent a sugar, 2 15-16; refined, steady.

Severe decline in the London market, registering a loss of about £2 as compared with final quotations of last F71 day. Spot closed there at £113 10s and futures at £112 10s. The New York market, influenced by the developments abroad and by the general condition of 161 South Main. Tel. 238. House, 1054Y.

the market, supplies being abundant and the immediate demand light, was also weak and lower, the loss amounting to about 50 points, with spot closing at 25.25 @25.50. G25.50.

Copper shared in the tin duliness, but lost only as in London, where it closed at 531 28 66 for syot and at 531 78 66 for futures. New York prices were unchanged, but the undertone was weak, with standard at 10.75, lake at 11.50@11.70, electrolytic at 11.30@11.50, nominal and casting at 11.30@11.50, nominal and casting at 11.30@11.50, and in London at 110 158.

Spelter ruled dull and weak, being Spelter ruled dull and weak, being

Fig. 15s.

Spelter ruled dull and weak, being about 5 points lower locally, where it closed at 5.25. In London it was unchanged at 510 los.

Iron in Glasgow closed at 56s, and in Middlesboro at 50s 3d. The local iron market was quiet and unchanged. Warrants continue nominal. No. 1 foundry, northern, 23.00025.00; No. 2 foundry, northern; No. 1 foundry, southern and No. 1 foundry, southern soft, 22.00023.00.

Treasury Statement. Washington, Nov. 17.—Today's treasury statement shows: Available cash balan-ces, \$204,488,250; gold, \$113,113,340.

Chicago, Nov. 17.—There was great activity in wheat at the opening, and a large volume of business transacted during the first half hour of trailing. Later a quieter feeling developed, but toward the close another onslaught was made on the market, and the close was at the tof for December, while May was only a shade under the best figures of the day. The opening was strong on unfavorable weather and higher cables, together with decreased receipts from both local and outside points. Covering by shorts was a feature threughout the session. December opened % to %c higher at 72% 673, and held steady around 73 until near the close, when there was another advance and final figures were at the top at 73%, showing a gain of %.

Corn ruled extremely strong. December opened % to 1%c higher and held firm throughout the day, the close being at the top noteh of 55, a gain of 2 cents over yesterday's close.

Oats were strong along with other grains, but trading was light. December closed %c up at 39%.

There was little doing in provisions. The close was strong, with January pork in 17%c higher, January lard 12%c higher and ribs 12%c up.

The leading futures ranged as follows: GRAIN AND PROVISIONS.

F you continually have pain in the back, loins, sides or lower part of the bowels your kidneys are diseased. Just how bad depends on how long you have had these pains and how much you have neglected them. There is no class of complaints which cause so much misery

as those due to diseased kidneys, including backache, lumbago, sciatica, diabetes, Bright's disease, imflammation of the biadder, gravel and womb disorders and uterine troubles in women.

MICKAPOO SAGWA RESTORES DISEASED KIDNEYS

It's a sure and speedy cure for all disorders of the kidneys. It cleanses and enriches the blood, restores the decay. stimulates and enlivens the vital organs and restores energy, strength and the vigor of health to the entire system. Read this man's convincing story:

"My wife was bedridden with Kidney troubles and two doctors gave her up. I got her to take Kickapoo Indian Sagwa and it relieved her at once. By the time she had taken it two months she was entirely cured and I thank God she is in excellent health today. If anyone doubts the above write to me at Ridgeway, Mo. and I will gladly answer all questions and make an affidavit, if it is desired, as I want to help anyone afflicted as my wife was."-Lemuel Franz.
